

AP Video Conference Agenda

(August 21, 2001)

1) Status of end-to-end simulation

(J. Stovall, S. Nath, D. Raparia, et al)

2) Notes on Lorentz force, rf overhead, rf control simulation

(R. Sundelin)

3) Discussion on BPM accuracy and beam based alignment

(J. Galambos, T. Shea, J. Stovall, et al)

4) Discussion on wire scanner review

(T. Shea, S. Assadi, A. Aleksandrov)

5) Ring injection vacuum chamber coating

(S. Henderson et al)

6) Ring kicker impedance measurement & budget

(D. Davino, M. Blaskiewicz et al)
