# SETUP

# OPERATION

# HAZARDS

## ELECTRICAL HAZARD

This equipment contains liquid near electrical connections.

## SLIP HAZARD

Liquids from agitating vessels may spill on to floor causing a slip hazard.

## CHEMICAL HAZARD

Improperly sealed vessels may cause splashing and present a chemical exposure hazard.

## SHARPS HAZARD

Glass containers used with this device may break and cause a sharps hazard.

# PREVENTION

## EYE PROTECTION

Wear safety glasses while operating.

## PROTECTIVE GLOVES

Wear appropriate gloves for heat and chemical usage.

## NON-SLIP, CLOSED SHOES

Wear non-slip, closed shoes to avoid spills.

## READ MANUAL

Become familiar with this guide before operating.
