

11TH BEAM INSTRUMENTATION WORKSHOP

KNOXVILLE, TENNESSEE
MAY 3-6, 2004

Abstract Deadline: March 1, 2004

The 11th Beam Instrumentation Workshop extends an invitation to join colleagues in addressing design principles and engineering issues of beam diagnostic and control instrumentation for charged particle accelerators and beam transport lines.

Our workshop is intended to promote a forum in which practitioners can exchange ideas and review instrumentation designs and to serve as an introduction to relevant topics for engineers and scientists with the aid of tutorial sessions.

LOCAL ARRANGEMENTS BY ORNL AND SPALLATION NEUTRON SOURCE PROJECT STAFF

Saeed Assadi	Alan Jones	Muriel Tate
Angela Beach	Ben Kelmers	David Thompson
Willem Blokland	Lori Lane	Tom Shea
Myra Fultz	Mike Plum	Coles Sibley
Charlie Horak	David Purcell	

ORGANIZING COMMITTEE

Tom Shea, ORNL, Cochair	Mike Plum, LANL
Coles Sibley, ORNL, Cochair	Thomas Russo, BNL
Glenn Decker, ANL	Fernando Sannibale, LBNL
Robert Hettel, SLAC	Steve Smith, SLAC
Ken Jacobs, UWSRC	Greg Stover, LBNL
Roland Jung, CERN	Robert Webber, FNAL
Geoffrey Krafft, JLab	Jim Zagel, FNAL
Ralph Pasquinelli, FNAL
